

"12 x 12" is one of the first three titles in a new compilation series put out by EMI records. Other albums in this series feature artists like Talk Talk and Thomas Dolby.

EMI released four Talking Heads albums in Europe ("Stop making Sense", "Little Creatures", "True Stories" and "Naked") and all remixes and alternative versions here collected are from the last three albums, leaving out remixes and alternative versions of earlier songs.

The album is also known as "12 Plus 12". EMI released the same album as "Talking Heads Remixed" in the UK only in 2001. The tracklisting is identical to "12 x 12", the cover is even worse.
