

German label Intergroove announced the upcoming release of a brand new Talking Heads DVD, "Live in Rome" for November (originally Nov 10 was mentioned as release date, but the release has been postponed for two weeks). The DVD contains the original Rai Uno recording of the Talking Heads show recorded in Rome in 1980 as part of the "Remain in Light" tour. The band line-up included Adrian Belew and Nona Hendrix. So far, only a region 2 coded DVD has been announced, so only playable in Europe and Japan (although it might be region free - stay tuned!).

"Live in Rome" is [available from the official talking-heads.net webshop](http://www.talking-heads.net) .
