

Tom Tom Club's latest album "Downtown Rockers" was originally released on vinyl (5 tracks) and as a digital download package with bonus tracks. After a Japanese CD release, anticipating the bands shows in Tokyo on May 20th and 21st, a German-produced 8-track CD has been released in Europe. Besides the five original EP tracks, the CD contains the E-Dub mix and Arthur Baker remix of "Downtown Rockers" (both previously available as part of the digital package) and two previously unreleased mixes of "Kissin' Antonio". The DJ Latin Bitman mix and Entro & Ginseng short mix appear to be exclusive to this new CD release.

["Downtown Rockers" CD is available here](#) .
